SUMMARY — Experienced Full Stack Web Developer with 3 years of hands-on experience. Proficient in a wide range of technologies including Node.js, Flask, Angular, JavaScript, C++ , MongoDB, Docker, HTML, and CSS. Skilled in developing robust and user-friendly web applications, implementing data structures, and utilizing databases for efficient data management. Passionate about learning new technologies and delivering high-quality code to meet project requirements.

RECENT EXPERIENCE

Accenture Ltd

Sep 2024 – Current

Full Stack Web Developer

Project: Singapore National

- Working on a full-stack project built with Node.js, Angular, and MongoDB.
- Working on Delivering various features and bug fixes.

Wipro Technology

May 2022 – Sep 2024

Full Stack Web Developer

Project: Ericsson ADP Portal

- Working on a full-stack project built with Node.js, Angular, and MongoDB.
- Delivered numerous features and worked on bug fixes.
- Wrote integration tests and used Cypress for required changes.
- Monitored daily running database backup jobs, Jenkins pipeline, memory graphs, and CPU graphs.
- Responsible for running cleanup jobs and restarting servers when necessary.

Project: Ericsson CPI Tools

- Revamped the Admin page using JavaScript, HTML, CSS, and EDS, replacing the previous implementation which was built with Perl CGI scripts. This improved the response times and overall user experience.
- Created REST APIs from scratch using Python Flask and OpenAPI 3, with Rapidoc API documentation and JWT authentication for user authorization.
- Delivered various bug fixes and new features.
- Provided end-end support for critical issues and worked on root cause analysis for incident resolution

AutomationFactory.ai

Nov 2021 – Jan 2022

Internship

- Contributed to a WordPress project by handling CSS, HTML, content updates, and image management.
- Learned UI Path Web Automation and developed a proof of concept (PoC) to automate content updates from a text file to the WordPress website.

TECHNICAL COMPETENCIES

Languages JavaScript, Python, C++ , HTML, CSS, Perl
Framework NodeJs, Angular, Flask, Basic GO language
DataBase MongoDB, MySQL
OS Window,Linux

DevOps Docker, Jenkins, Cypress, Jasmine, AWS
Other Skills Data Structure, Postman, Swagger, Rapidoc, RestAPI, Git, MS-Office

EDUCATION

Corporate Institute of Science and Technology, Bhopal (MP)

June 2018 - May 2022

Bachelor of Technology in Computer Science and Technology

M.G. Inter College, Gorakhpur (UP))

2015 - 2017

PCM

GHS Gaura, Gopalganj (Bihar)

2014 - 2015

All

PERSONAL PROJECTS

Employee Management System

- Developed an Employee Management System using Angular 14.
- Implemented CRUD operations (Create, Read, Update, Delete) to manage employee details.
- Designed a user-friendly GUI (Graphical User Interface) for adding, fetching, updating, and deleting employee records.
- Utilized JSON for local data storage.

Automate RGPV Portal

- Worked on automating downloading of results from RGPV portal for given list student login details. It involved automation using UiPath

Automate IRCTC Portal

- The previous project, this work automates booking tickets using IRCTC. It too uses UiPath for implementation.
